

ALKA PLUS

ALKALINE DETERGENT FOR AUTOMATIC WASHING OF FABRICS WITH LOW ENVIRONMENTAL IMPACT

- Tested for reduction of the levels of surfactants in the drained water
- Strong anti-redeposition action
- Optimised for use with Oxipur system products

Alkaline detergent for automatic washing of fabrics, excluding delicate fabrics and wool. Ideal for washing cycles with environmental criteria and laundries with very strict limits on surfactants in waste water.

Formula without surfactants: the total surfactant content is <1%, and the surfactants present only have a wetting/stabilising function and not a cleaning function.

Particularly effective on greasy dirt, thanks to the alkaline substances contained in the formula.

HOW TO USE

To be used during prewash and main wash.

- Introduce it during water loading, it can be used in combination with any additives, special additives or bleaches of the Oxipur range. Suitable for use at any temperature.

For further information please contact the Sutter Professional technician.

DILUTION

From 5 ml/kg to 15 ml/kg.

- In the pre-wash: 30% of the recommended dose.
- In the main wash: 70% of the recommended dose.

To be dosed according to the cycle of washing, water hardness and kind of dirt.

ALKA PLUS

TECHNICAL DATA

ASPECT: Clear/lightly opalescent liquid

COLOR: Colorless/yellow

PERFUME: Technical

COV/VOC: 0,00%

PH	Active substance [%]	Density (g/ml)	Pressure (bar)	Viscosity (cP)	Total dry residue [%]
> 13,0	25 ± 1	1.2
